

# VAPPRO VCI-870 ELECTRO-SPRAY

**NATO STOCK NUMBER:**  
6850-32-076-1186

## DESCRIPTION

Vapro VCI-870 Electro-Spray is formulated with nitrate-free inhibitor and a non-flammable solvent. It is an effective inhibitor of galvanic corrosion for all metals and alloys normally found in electronic applications such as copper, aluminum, ferrous and non-ferrous metals.

Vapro VCI-870 Electro-Spray is developed for use in sheltered environments. Its continuous vapour action extends the product shelf life and eliminates downtime due to corrosion.

The protecting layer of Vapro VCI-870 Electro-Spray does not alter electrical resistance, magnetic or thermal properties of metal substrates.

It can be safely applied for protection of low voltage circuits or relays without causing any changes in conductivity.

## APPLICATION

Printed circuit boards, relay-connectors, electronic equipment, motors, generators, junction boxes and all electrical enclosures.

## FEATURES

- Nitrite-Free
- Non-Flammable
- Instant Corrosion Protection
- May Be Used As A Cleaning Agent
- Multi-Metal Protection
- With Penetrating And Moisture Displacing Properties
- Non-Film Build-Up or Impairment Of Conductivity
- Easy Application
- Long-Term Protection
- Does Not Attack Plastics Or Rubber

A member of

## DIRECTIONS FOR USE

Vapro VCI-870 Electro-Spray may be used in enclosures varying in sizes from a few cubic feet to hundreds of cubic feet. The amount of Vapro VCI-870 VCI Electro-Spray to be used to maintain a sufficiently concentrated vapour will depend on factors such as:

- Volume of enclosure
- Atmospheric conditions
- Efficiency of sealing enclosures

## AVAILABLE PACKAGING

400ml Aerosol can (12 cans per carton)

## SPECIFICATIONS

### Colour

Light Amber

### Clarity

Clear

### Viscosity

Free Flowing

### pH

10±0.5

### Di-Electric Strength

Min. 15,000 volts

### Shelf Life

2 Years in sealed container

### Flash Point

Non-flammable
